Return Instructions

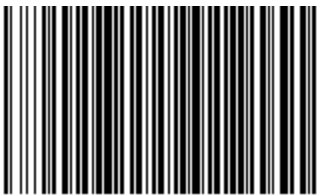

Please follow the steps below to return your item(s):

1. Find a container that will fit all of the items you are returning. It is recommended to use a bag to avoid high shipping costs.
2. Place all the items you selected to return, including this note, into the container and seal it. Make sure the container fits the items as snugly as possible, to avoid excess shipping costs. Also make sure there are no tracking or shipping labels attached to the container.
3. Source your own carrier to return the parcel, paying them directly for the service.
4. Use a tracked service when returning your order. Returns sent using the self-postage option are the customer's responsibility, and we are unable to assist with any lost returns that are not sent using a tracked method.
5. Ensure the postage label and invoice are attached to the outside of the parcel for customs purposes and to avoid any delays with the return process.
6. Send the package to the address detailed on the returns note
7. If a refund has not been received within 14 working days of the parcel being received back at our warehouse, please reach out to the Global-e Customer Service team directly with your postage receipt or tracking details for further assistance.
